Recycled Art Competition

In the spirit of Living and Learning Green, the Buddy Project is hosting a Recycled Art Competition. All Indiana students, grades K-12, are encouraged to create a piece of wearable or usable art that promotes the principles of green living: reduce, reuse, and recycle. Submissions will be divided into categories by age and prizes will be awarded for each category. Submissions will be accepted through February 23, 2009.

For contest guidelines, submission forms, and more information, visit this link on the Buddy Project website:
